to Fuel you up!

RBP PETROSTAR INC.

Calulut, San Fernando, Pampanga

We are a gas station chain dedicated to providing fuels, exceeding expectations in every aspect of your pit stop.

We believe in offering more than just fuel; we're committed to delivering clean, well-maintained facilities, exceptional customer service, and services to make your journey as enjoyable as possible.

HISTORY

In 2004, RBP Petrostar started as a small-scale dealer of petroleum products through the initiative of Mr. Rey Balanquit-Pineda. It started with clients having about fifty (50) units of service vehicles during the 2004 local elections. Within 6 months of pursuing the business, the network of clients grew to a large serving of up to 500,000 liters gasoline and diesel per week.

Due to high local demand, the first RBP Gasoline Station located in Dolores, San Fernando, Pampanga was built (July 28, 2009). Back then, the station served as one of the major family businesses.

As a businessman taking risk in the petroleum industry, the company went through its ups and downs. In 2009, challenges were encountered in the establishment of the RBP Petro Star gasoline station located in Sindalan, San Fernando, Pampanga resulting in the non-operation of the newly constructed branch. But in spite of this trial, RBP Petro Star Dela Paz Gasoline Station in San Fernando, Pampanga was successfully launched in the same year.

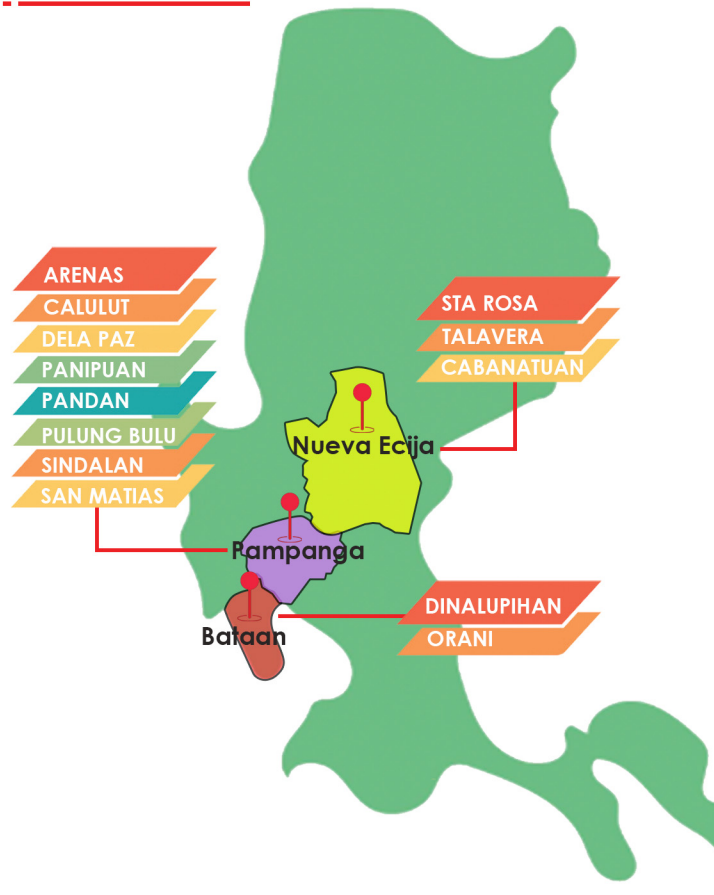

In 2011, the RBP Petrostar Sindalan Gasoline Station eventually became operational. From then on, twelve (12) more RBP Petrostar gasoline stations were established across the 3 provinces in Central Luzon.
